Experience

Arkansas Tech University | 2025 - Current

Teaching Assistant - Programming I

- Assisted students during lab sessions by answering questions, troubleshooting code, and reinforcing programming concepts. Supported course instruction through grading assignments and contributing to the development of instructional materials used in teaching.

Computer Science Tutor

- Provided one-on-one academic support to students in computer science courses by explaining programming concepts, helping debug code, and guiding students through problem-solving strategies.

Asurion | 2018 - 2022

Senior Data Analyst

- Responsible for the creation and management of Power BI dashboards, gathering data with complex SQL queries, and compiling and presenting results to multiple levels of the company.

Data Analyst

- Reviewed project-related data to improve key metrics and provided in-depth findings and recommendations for improvement.

Survey Verbatim Coder

- Reviewed customer survey responses related to products and representative interactions, then compiled and presented results with recommendations for improvement.

Education

Arkansas Tech University | 2023 - Current

Pursuing a Bachelor of Science in Information Technology with a minor in Secondary Education. Expected graduation in 2027.
